

PROPOSAL SUMMARY :

1. EXECUTIVE SUMMARY OF THE PROPOSED STUDY.

(The Executive Summary should briefly mention a dissertation title, statement of the problem, objectives, and proposed procedures.)

-

2. STATEMENT OF THE PROBLEM.

(Concisely describe the rationale for undertaking the proposed project.)

-

3. STATEMENT OF PURPOSE/DETAIL OBJECTIVES.

(The statement should be used to explain why the study is important. Any additional information you wish to include to support your application should be on the Statement of Purpose. Concisely describe the overall goals of the research and the specific aims of the proposed project.)

-

4. PROPOSED METHODOLOGY/PROCEDURE.

(Describe the study approach to be used to accomplish the specific aims of the project. Detail the design of the project, including the overall sequence of studies to be performed, justification for use of animal and/or human subjects, and if new methods are to be employed, describe them in this section and discuss their advantage over older methods. Include also the statistical methods to be utilized.)

-

5. SCOPE OF RESEARCH/LOCATIONS.

(State if the study is national in scope and indicate the locations of your research.)

-

6. BRIEFLY STATE SIGNIFICANCE OF YOUR STUDY TO MALAYSIA/THE HOST STATES.

(Briefly describe the relevance of this research project to its scientific field. Additionally, discuss the importance of the work to Malaysia and the states where the study is to be carried out.)

-

7. STATE CONCRETELY THE UNIQUE FEATURES OF YOUR STUDY.

(Describe briefly the unique qualities of your study compared to the previous study of similar nature.)

-

8. STATE THE OVERALL TIMELINE (FROM START TO FINAL REPORT).

(Describe what will be accomplished during the proposed period of research)

-
